Majors in Computer Science, Data Analytics, and Artificial Intelligence; Minor in Spanish Language and Culture

Cumulative GPA: 4.0/4.0; President's List 2022 - Present

Relevant Coursework: Machine Learning; Cloud Computing; Database Systems; Regression; Time Series; Artificial Intelligence

WORK EXPERIENCE

WELLABE

CEI Data Science Intern

Des Moines, IA

Aug 2025 – Present

- Contributing to enterprise-wide digital engagement initiatives by supporting data-driven projects that enhance customer experience and policyholder retention.
- Analyzing and pipelining loyalty program website data (logins, clicks, usage patterns) to identify trends in customer engagement and predict policyholder persistency and retention.
- Currently building a Power BI dashboard to analyze trends in digital usage among policyholders, comparing current engagement, policy persistency, and retention outcomes to past years. Building off of previous progress made with DIIL.

CORTEVA AGRISCIENCE

Data Analyst Intern

Johnston, IA

May 2025 – Aug 2025

- Built three Project Management Power BI dashboards: created and documented an ETL pipeline integrating data from Monday.com via API into Databricks
- Collaborated with business stakeholders to define key metrics and develop tailored data stories for each dashboard
- Designed a Power Automate workflow to streamline bi-weekly leadership emails with AI-generated message summarization

DRAKE INSURANCE INNOVATION LAB (DIIL)

Data Science Intern

Des Moines, IA

Sep 2024 – May 2025

- Spearheaded customer segmentation strategy using k-means clustering in Python and SQL within Snowflake, leveraging behavioral, demographic, and interest data to personalize engagement in a new rewards program for Wellabe
- Presented strategic insights to senior executives, emphasizing segment-driven value and potential impacts on customer retention and engagement

WELLMARK BLUE CROSS & BLUE SHIELD

Health Services Operations & Systems Intern

Des Moines, IA

May 2024 – Aug 2024

- Streamlined daily SQL report, reducing errors and enabling quicker issue resolution; trained peers on the updated process
- Led project to merge and reconcile coverage records, increasing monthly review activity by 160% and establishing standard research protocols.
- Supported UM, CM, and Appeals processes software upgrade by creating testing scenarios, ensuring data synchronization, and participating in business and technical testing.

INVOLVEMENT

DRAKE WOMEN'S SOCCER

NCAA Division I Athlete

July 2022 – Present

- 2025 Missouri Valley Conference Board of Directors Academic Excellence Award
- 2024 & 2025 Missouri Valley Conference Student-Athlete Commissioner's Academic Excellence Award

DRAKE UNIVERSITY TUTORING LAB

Computer Science and Math Tutor

Jan 2024 – Present

- Provide 1-on-1 and group tutoring sessions twice a week, helping students develop personalized study strategies to improve academic performance and complex understanding
